About this item

- THIS 20QT STOCKPOT IS A NECESSARY ADDITION TO YOUR KITCHEN - This large 20QT stockpot features the timeless French kitchen elegance design; cuts a fine figure both in the kitchen and at the dining table - Made of food grade NICKEL FREE stainless steel for better health and better nutrition - 7MM in base thickness and 5.7LBS in weight - Great for boiling lobster, crab, or simmering stocks, soups for large crowds - Discover the gourmet chef in you with this beautiful and efficient stockpot.
- NICKEL FREE HEALTHY COOKWARE - Made of food grade NICKEL FREE stainless steel, non-toxic, non-allergic & more energy savings. - Japanese standard JYH21CT SS (21/0) for the pot body & the inner base; 430 (18/0) for the outer base - Nickel-bearing stainless steel (e.g., 304 SS) is commonly used for cookware, BUT nickel is high up on the ATSDR list of priority toxins and it LEACHES under regular cooking conditions! - Nickel free stainless steel is also more heat-conductive than nickel bearing SS.
- QUALITY BUILD & ELEGANT APPEARANCE - Look noble & elegant: mirror polished exterior, matte polished interior, see-through clear tempered glass lid with steam vent, and ergonomical stainless steel handles - These pots are beautifully engineered by HOMICHEF's own in house manufacturing facilities at the world top quality - Compatible with gas, electric, induction, ceramic, glass and halogen stovetops.
- ADDITIONAL FEATURES - 3-Ply construction in the 7MM thick base (one layer of pure aluminum core sandwiched between two stainless steel layers) eliminates warping and hotspots effectively and ensures optimal thermal absorption and transmission, thus faster cooking and more energy saving - Solid riveted stainless steel handles stay cool on stovetops - Tempered glass lid is specially designed to release excess vapors while efficiently circulating heat & moisture, preserving flavors & nutrients.
