## About this item

- **Flexible Size:** The gate has a height of 33 inches and can extend from 0-55 inches in width. Cumbor retractable baby gate neatly rolls up to save space when not in use, making it easy to convert the room into an adult-friendly space again.
- **Safety Locking:** The knob at the top of the baby gate ensures that the retractable pet gate is easy to use for adults and can be opened and closed with one hand, while curious little ones and pets will not be able to make any naughty bids for freedom.
- **Superior Safety:** The mesh material is much softer for your babies, so there's less chance for them to hurt themselves while they are playing. Unlike other gates, there is no balustrade at the bottom - so no trip hazard when you are moving through with your hands full. Best choice for parents.
- **Any Location:** Cumbor safety baby gate is suitable for the kitchen, bedroom, living room, stairs, and other off-limit areas inside your home, providing a safe area for your little one. For use in both indoor and outdoor spaces.
- **Easy Installation:** With the tools provided, you can have your new mesh child gate installed in minutes. Brackets, wall anchors, and screws make installation a hassle-free process. You will get: Retractable mesh gate x1, Wall guides x2, Bracket x2, Latches x2, Wall anchors x8, Screws x8, Instructions x1

**Quantity:** 1
