Each spinning and casting rod feature a chartreuse "Strike Tip" for early strike detection even in low light conditions.
- Brutus Braid Ready Line Guides – Brutus components are as tough as the rod itself. Unlike competitive models, Brutus fishing poles are braid ready and made for the toughest conditions. KastKing uses only stainless-steel running guide frames with corrosion resistant URS Stainless Steel rings. The tip top guides are Zirconium Oxide rings and are perfect for fluorocarbon, monofilament or braided fishing lines. This special formula high-strength EVA is easy to clean, provides cushioning and doesn't get cold or crack when the temperatures drop. Each fishing rod also uses the same EVA material in the foregrip to give you additional leverage for landing large fish.
