About this item

- Super Large Size For Big Idea - Don't let the small space limit your plant growth! With the dimension of 8*4*1ft, PETNOZ raised planter can hold 32 cu ft optimal soil to provide your garden diversity with plenty of room which is really crucial for plants' growth. To add the flexibility, the longest edges can also be adjusted to the 4ft by using one metal sheet for your special requirements.
- Premium Material For Great Endurance - Made of upgraded galvanized steel sheets, petnoz raised garden beds can dispel all your misgivings about the durability. It performs better in all weather conditions than wooden ones which will easily rot in damp soil or be destroyed by rabbits and woodchucks. In

comparison to the ordinary steel, our garden boxes also have the stronger resistance to the corrosion and rust to extend its life span and keep your garden landscape tidy and remarkable.

- No Bottom Design - Enjoy other's envious look in rainy seasons! The open-bottom design endow this elevated garden bed with the outstanding drainage which releases the excess water to deep soil effectively and prevent the damage from the accumulation. What's more, it also promises the unrestricted growth to those crops with deep and developed roots system and allows them to absorb more nutrients which will improve their quality significantly.
- Quick Start To Plant- Owing to the simple structure and the quick guide, you can build up this "garden castle" in 10 minutes even if you are new to gardening. Besides 6 metal stakes to ensure the stronger fixation on the ground, we update the hauling cable with 2 support bars to strengthen inward force to make the structure stable and keep it in good shape.
