MULTIPURPOSE REFLECTIVE INSULATION
ZRNIDIYR

Description

- Premium Quality -3mm closed cell polyethylene FOAM (not cheap bubbles) sandwiched between highly reflective Engineered Aluminum Foil on both sides. Easy to install, easy to cut and clean, Strong but lightweight.
- Extremely Effective -reflect most of radiant energy, emits less heat.
- Safety First -Non-toxic, non-carcinogenic, fiber-free, safe to handle and does not require protective clothing or respirators to install. Easy to install and maintenance free, cuts easily with utility knife or scissors and installs easier than fiberglass. Simply staple, nail, glue or use a spray adhesive to hold in place! No mess, and no itchy fibers!
- Application -Unaffected by humidity and moisture, can be used indoor/outdoor. Use the insulation shield to weatherproof barns, attics, concrete floors, water tanks, wine cellars,garage door, dog house insulation,insulation for cat house or chicken coop insulation.You can also use on RV window shade, skylight cover for DIY material
- Barrier Saves energy by reducing the stress on heating and cooling systems, keeping your home or car warmer in the winter, and cooler in the summer. As well as provides benefits of soundproofing when used in walls, ceilings and floors. It can reduce utility bills substantially all year round. As well as provides benefits of soundproofing when used in walls, ceilings and floors. Can also increase your overall property value depending on use.
