About this item

- **Upgraded Quality and Materials** This raised planter box is made from reinforced plastic material, lightweight but sturdy. This thickened plastic is also resistant to rust and corrosion, the planter box can be used for many years without taking care of it outdoors.
- **Easy to Assemble** This planter box outdoor is designed in a simple but stable structure, which is very easy and quick to put together. The lifted design is easy to adjust the height and width, perfect for flowers, vegetables or herbs.
- **Self-watering Disk & Drainage Holes** Self-watering disk design provides space to reserve excess water and helps plants absorb the water and nutrition

completely. The drainage hole design can effectively avoid the accumulation of water and protect the plant roots, allowing the roots to better absorb nutrients.

- Ergonomic Height Elevated raised garden bed with legs reduces excessive bending and kneeling to help preserve your back and knees as you tend to your balcony, deck, or patio garden.
- Planter Box Information One planter box Dimension: 15.5" L x 15.5" W x 17"H; Weight Capacity: 66 lbs. Multiple planter boxes can be stitched together to create a larger growing area to suit your various needs. Including Climbing Frame Holes, can assist in the growth of vine plants.
