About this item

- **HIGH QUALITY RANGE HOOD** : The cooking range hood is made of thick brushed stainless steel that is durable, rust proof and easy to maintain. With tempered glass ultra-clear display which is easy to clean which has an elegant appearance that very match your kitchen. Also it works very stably without vibration even at the highest speed. Equipped with 4-speed fan, 3 control methods, 2 LED lights, 3min delay shutdown and 15min adjustable timer, make you control your cooking needs flexible.
- **VOICE CONTROL** : Upgraded voice control range hood allows you to achieve hands free completely. Not need to rely on your phone or other software to drive the voice assistant, just call your cooking partner "Andy" to help you execute the command after the power is plugged in. When you are washing vegetables, you

not need to go to touch or hand wave control vent hood to switch functions, it is perfect to save your operation time. The voice control function gives you a whole new experience.

- **900 CFM STRONG SUCTION** : Powerful insert range hood with ultra-quiet motor and 4 speed exhaust fan which allows you to choose the intensity of the air suction according the different cooking requirements. It can provide up to 900 CFM air suction for your cooking fumes, while keeping the noise low and always sustain its optimal efficiency to capture smoke and odors. Also the 3-minute delayed shut-off function will effectively removes residual harmful fumes and leave your kitchen with fresh air.
- **CONVERTIBLE VENTILATION** : It has 2 installation exhaust options for outdoor ventilation (ducted) or indoor ventilation (non-ducted). Default is top ducted 6" round exhaust vent. Each rang hood comes with an activated carbon filter, which is specifically designed for room no extractor duct (activated carbon filter is replaceable). You can based on your kitchen needs to choose the exhaust method and ensure a perfect airflow and efficient ventilation of the entire kitchen.
- **WHAT YOU GET** : You will get a range hood, vent pipe adapter, 6" vent, carbon filter, manual and a pack of screws. The baffle filters are dishwasher friendly which will reduce your cleaning time and the stainless steel body can also be cleaned with a wet cloth with warm water.
