## About this item

- Specifications 24" square drop in pan with 16" square burner. Rated BTU Max: 92,000. 1 1/4" flange on all sides for simple drop-in installation.
- Stainless Steel Made of sturdy stainless steel for more durability and better heat resistance. Fuel distribution ports are precision drilled for smoother gas flow and better flame.
- Easy to Assembly Complete accessories and easy to install into your fire pit. Drop-in design and welded-in burner design add freshness and modernity to your fire pit. Use it with our all-in-one ignition kit for great convenience.
- Natural Gas and Propane Gas Designed for natural gas or propane. Notice: If you are using propane, an air mixer valve must be installed(sold separately).
- DIY Your Own Style Fire Pit Choose your favorite fire glass color to make your fire pit stylish and enjoy a nice realistic fire and ample heat in your backyard on a

cool evening. We recommend a minimum 2" of fire glass depth for most installations.
