About this item

- This is a portable oxygen concentrator, which can produce 99% oxygen at a flow rate of at least 6 lpm for at least 1 minute. This is an independent device, which

delivers oxygen through a standard oxygen mask or nasal cannula, and can adjust the oxygen concentration according to the needs. Different groups of people have different needs, and it can be used for home or even for travel.

- The noise is lower than 42dB, and the noise reduction is more thorough. Ultra-clear crystal screen, you can clearly see the timing display on it, how long it has been used cumulatively, sleep mode. This oxygen generator adopts negative ion mode, and the negative ion concentration is ≥ 8 million/cm) to make your ambient air fresher, so you can also use it in the sleep state to fully take care of your and your family's sleep. You can also make accusations with a remote control.
- That does not generate unwanted particulate matter or undesirable gases. Suck water through the sink and release oxygen from the oxygen port, so the throat won't dry.
- Pure oxygen production: completely up to the standard, with a purity of $> 99.0\%$; Fast oxygen supply: plug in the power supply, press the power switch, no need to wait, after 5 seconds, oxygen will continuously emerge; Easy operation: the oxygen generator has a simple structure and can be operated by everyone; Good to carry: The oxygen generator is small and light, even for the elderly over 60 years old, it can be easily lifted and can be used for home travel.

The oxygen concentrator has a FIVE STAR Amazon rating and retails for \$499.00
