## About this item

- [Ideal Garden Trellis]: Height 6.3 feet(75.6 inches), perfect size to work as plant trellis. The vertical tomato tower obelisk gives flowering vines, vegetables and other planters a sturdy support to climb. Adds dramatic height to your garden with vertical trellising.
- [Stunning & Decorative]: The vertical tower obelisk with aesthetic design adds a stylish and nature touch to your yard with climbing plants, climbing roses and and fruits. Looks beautiful adorned with garland for holiday decorations or fairy lights for magical night time scene.Fits any outdoor setting from classic to contemporary. Charming focal point to any patio, lawn, garden, courtyard area.
- [Good material and structure]: Constructed of metal tubing and coated in weather-resistant epoxy.Tall vertical frame with 4 stakes into ground, more stable.
- [Assembly required]: Every tube has pre-cut and pre-drilled holes. The garden trellis should be assembled in top-to-bottom order. For ease of subsequent installations, please don't tighten screws until fully assembled.
