LOT 56 - National Geographic Ghost Fleet of the Outer Banks Map

Description

This map is still in the original plastic tubing and I'm not taking it out because I don't believe that I will be able to get it back in. This map is a 2008 reprint of the original map that appeared in the 1968 edition of National Geographic and shows the sites of 500 shipwrecks along the Atlantic coast. It is about 11.5" wide.

Quantity: 1
