**LOT 146 - Celtic Scottish Regimental Dirk Dagger**

**Description**

**Celtic Scottish Regimental Dirk Dagger**

The Celtic Dirk or long dagger has a long history in British Isles. Originally a cut-down sword on a dagger handle, it has been used since the Bronze and Iron Ages. In medieval times, the dirk was used with a broadsword and normally wielded in the left hand. Many Scottish and Irish males were too poor to afford a sword but nearly all had a dirk. Dirks were often used to swear upon when taking oaths.

This Celtic Dirk has the customary basket-weave pattern on the handle and a Damascus etched blade. It comes with a handsome scabbard and a mini Celtic knife and fork.

Overall Length - 17 1/3"

Blade Length - 11 1/2"

**Quantity:** 1
