About this item

- Support 5GHz & 2.4GHz Dual-Band WiFi - The Rocktone indoor security camera supports 5GHz and 2.4GHz dual-band WiFi connection. Dual-band WiFi can reduce interference with other wireless devices, improve network performance and stability, and provide you with more flexible WiFi device connection options, suitable for various home and office environments—no more worries about device incompatibility.
- Full Color Night Vision & 1080P High Resolution - Compared with other indoor/outdoor cameras that only have infrared night vision function, the Rocktone pet camera adds a color night vision mode, with two built-in white light lights, which can capture color images even at night. At the same time, the high-definition resolution of 1080p also guarantees the quality of the picture. Great for home and office use.
- Smart Motion Detection & Push Notifications - The cameras for home security use advanced artificial intelligence recognition technology, and when motion is detected, the wifi camera can beep (this feature can be set) and you will receive an instant alert message on your phone. Therefore, you can use them indoors or outdoors. Use it to monitor your baby's movements or scare away uninvited guests.
- Smooth 2-Way Audio & Multiple Users - Rocktone indoor cameras for home has a built-in microphone and speaker, allowing you to communicate with your family, children, and pets anytime, anywhere, and also supports simple voice commands to view real-time feedback from the camera on Alexa and Google Assistant devices. In addition, you can share your device with your family and share happy moments.
- 24/7 Continuous Recording & Optional Storage - This home cameras indoor provides both SD card and cloud storage options. It supports 24/7 continuous

recording with SD card (up to 128GB not included), capturing every detail. Cloud storage is also available for recording important moments, Rocktone inside camera offers a 7-day free trial of cloud storage. Whether you prefer local or cloud storage, the choice is yours to ensure your home security camera records your cherished memories!
