Description

Enbrighten 120 Volts 6-Outlet Outdoor Smart Plug

Overview

Experience the ease of wireless with the Enbrighten Outdoor Wi-Fi Smart Plug Yard Stake. Connect the smart switch to a 2.4GHz Wi-Fi network to control and schedule plug-in landscape lights, seasonal décor and other outdoor devices. By supporting dual- and tri-band routers, the device is ideal for the latest home Wi-Fi equipment. The easy-to-use Enbrighten app with diverse, hassle-free pairing options is available on the Apple App Store and on Google Play. Direct compatibility with Amazon Alexa and

Google Home supports convenient voice commands without a hub. Creating a lighting program from anywhere has never been simpler. The smart device supports all bulb types and features six simultaneously controlled grounded outlets as well as a manual ON/OFF button. Its durable stake offers secure placement in yards, gardens and more. The unique plug provides an ergonomic grip to easily unplug the cord and accommodates duplex outlets. To fully automate your life, connected equipment is controlled by scheduled settings, weather changes, location and full-range countdowns. Custom ON/OFF commands support operation around the clock while preset automations allow lighting control at the perfect time of day. Enjoy the smartest yard anywhere with the Enbrighten Outdoor Wi-Fi Smart Plug Yard Stake.

- 2.4GHz WiFi Compatible – Connects to 2.4GHz networks of single-, dual- and tri-band routers through effortless pairing options for use with the latest home WiFi equipment
- Voice Control – No hub required for voice commands through Amazon Alexa and Google Home
- Easy-to-Use App – Versatile Enbrighten app available in the Apple App Store and on Google Play simplifies network connection for hassle-free mobile operation of outdoor lights, holiday decorations, landscape features and more
- Simple Setup – Schedules and automations for each outlet support full customization based on times, presets, weather, location and other factors, plus organizing devices by rooms and homes allows control of several locations from one app
- Heavy-Duty Design – Six simultaneously controlled outlets with self-closing weather-resistant covers and durable yard stake withstand the elements while the cord features an ergonomic plug to easily fit receptacle boxes
