LOT 10 - Grip-Rite 1-in Smooth Shank Electro-Galvanized Roofing Nails (2440-Per Box)

Description

Grip-Rite 1-in Smooth Shank Electro-Galvanized Roofing Nails (2440-Per Box)

Overview

Grip-Rite fasteners are the choice of contractors who want professional results from a brand they know and trust. Grip-Rite galvanized roofing nails are used for applying asphalt shingles, insulation board, and felt to wood substrates. Roofing nails have a large head and thicker barbed shank to provide greater holding power. Roofing nails are also used to install vinyl siding as well.

- Package quantity approximately 2440 pieces

- Electro galvanized
- Large head and barbed shank gauge provide greater holding power
- Made to conform to ASTM F1667
- Also appropriate for applying vinyl siding

Quantity: 2
