LOT 14 - TORK 20-Amps 125-volt Timers In-wall Countdown Lighting Timer

Shipping Available Yes

Description

TORK 20-Amps 125-volt Timers In-wall Countdown Lighting Timer

Overview

The RFF in-wall countdown timer requires no electricity to operate and is designed to replace any standard wall switch. It's ideal for automatically limiting the operation on time of fans, lights, motors, heaters and most common home fixtures to a maximum of 60 minutes. Compatible with incandescent, fluorescent, CFL and LED lighting. This spring wound timer comes with a brushed metal plate and is an excellent choice for saving energy and assuring lights are turned off when not needed.

- Variable timing twist knob for time on setting

- No adjustments just wire and go
- No neutral required great for retrofit
- SPDT 2 in 1 contacts wire as SPST also

Quantity: 2
