LOT 80 - SmartStraps 2-in x 27-ft Ratchet Tie Down with J-hook 10000-lb Break Strength

Description

SmartStraps 2-in x 27-ft Ratchet Tie Down with J-hook 10000-lb Break Strength

Overview

The SmartStraps RatchetX Ratchet Tie Down is a commercial duty tie down used to secure the heaviest loads often hauled on a large trailer or flatbed such as large equipment, larger tractors, and vehicles. The ratchet tie down has a comfortable over-molded, padded Power Grip™ handle and release pawl for extra grip and has extra durable stamped steel rails for maximum leverage. It also has high capacity, high

visibility commercial duty webbing that is extra long for securing oversized, tall cargo and features SmartWeb™ technology that is stronger and more abrasion resistant than standard webbing. Includes protective hex caps to help keep ratchet mechanism clean. The strap features precision gearing thanks to more teeth along the sprocket of the ratchet, allowing the tension to stay under control when securing loads. Included Zerust material acts as a rust-inhibitor to improve the longevity of the ratchet.

- For securing the heaviest loads like vehicles and big equipment
- Break strength of 10,000 lb and safe working load of 3,333 lb.
- High-visibility, durable construction
- Features super strong, welded and plated steel double "J" hooks that won't rust or mar
- Comfortable, over-molded Power Grip™
- Sturdy release pawl won't jam when under a heavy load
- Includes 1, 2 in x 27 ft commercial RatchetX ratchet tie down strap
- High-strength and ultra durable thanks to SmartWeb™ technology
- High visibility, commercial duty webbing
