LOT 81 - Orbit Max 50 ft X 5/8 Polyfusion Hose

Description

Orbit Max 50 ft X 5/8 Polyfusion Hose

Used return, untested

Overview

The innovative Orbit Max flex polyfusion professional-grade water hose features advanced technologies that make any watering task more efficient and more enjoyable. Engineered with POLYFUSION Technology®, a premium polymer compound, to provide heavy-duty strength with the feel of a lightweight hose that can maneuver with ease. The Antikink Technology® construction provides a self-straightening feature, that when under pressure keeps kinking to a minimum. The hose has the look and feel of rubber and is abrasion resistant. Wrench-free, crush-resistant couplings with an anodized aluminum male-end and brass female-end. The

couplings have heavy-duty easy to grip collars at both ends to make installation a breeze. The Orbit Max POLYFUSION professional-grade water hose offers the most valued features in watering functionality to date. This combines heavy-duty performance, a lightweight feel, kink-resistance, flexibility, and mobility into a hose that is ideal for any watering need, whether in the garden, home, jobsite, or industrial applications.

- All weather performance hose
- Heavy-duty, easy to grip couplings
- Polyfusion and antikink technology
- Up to 500 PSI burst pressure rating
- 50' x 5/8"
- UV protection
- Scratch and abrasion resistant
- For outdoor and cold water use only

Quantity: 1
