LOT 89 - Harbor Breeze Brackenridge 22-in Brushed with Brushed Nickel Blades Integrated LED Indoor "Fandelier"

Description

Harbor Breeze Brackenridge 22-in Brushed with Brushed Nickel Blades Integrated LED Indoor "Fandelier" Ceiling Fan with Light and Remote (3-Blade)

Open box return

Overview

The 22-in Brackenridge in brushed nickel finish combines the style of a ceiling light along with the functionality of a ceiling fan making it a perfect option for your lighting

and cooling needs. The Brackenridge is equipped with a 3-speed remote control so you can maintain your ideal comfort level and a reversible motor function which allows you to change the direction of your fan from downdraft mode during the summer to updraft mode during the winter. The fan's integrated LED light kit is fully dimmable and delivers up to 700 lumens of down light output and 1400 overall lumenation.

- Dimmable LED light produces up to 700 lumens when set to its highest level, 3,000K color temperature
- Fandelier can be hung from standard or angled ceilings using the 4-in downrod included
- Remote control included, so you can operate the fan and light from anywhere in the room
- ETL rated for use in indoors
- Brushed nickel ceiling fan from the Brackenridge family features 3 silver finish blades
- 22-In fan provides airflow up to 600-CFM, making it ideal for small rooms
- 3 speed settings make it easy to maintain the ideal comfort level
- Reverse air flow switch that allows you to change the fan's blade direction setting seasonally, so cool air is pushed down or warm air is distributed evenly, reducing energy usage year-round

Quantity: 1
