Description

Buyers Products Electric Trailer Jack - Drop Leg - A-Frame - 22-1/2" Lift - 3,500 lbs (NEW)

Never used when originally purchased!

Retails at \$224.00 today

Features:

- Electric jack lets you raise and lower your A-frame trailer quickly and easily
- 7-Way RV-style plug pulls power from your vehicle's trailer connector
 - No need to manually wire for power
- Weather-sealed toggle switch on underside of housing extends and retracts jack for easy operation
- 2 LED lights on either side make it simple to set up your camper at night
 - Red button on back of jack turns lights on
- Convenient built-in leveling gauge lets you see if your setup is level
- Integrated circuit breaker prevents motor damage
- Emergency crank (included) allows you to manually operate jack if needed
 - Crank inserts into socket beneath level
- Drop leg allows for increased lift and saves time when raising or lowering
- Sturdy carbon steel construction
- Black powder coated outer tube
- Zinc-finished inner tube and footplate resist corrosion
- Easy bolt-on installation
