LOT 76 - GE PowerMark Gold 200-Amp 12-Spaces 24-Circuit Outdoor Main Lug Load Center

Shipping Available No

Description

GE PowerMark Gold 200-Amp 12-Spaces 24-Circuit Outdoor Main Lug Load Center

New in the box - never used or installed.

The load center includes a sturdy tin-plated copper buss bar and a galvanized box for increased durability and reliability. The one-piece interior removes and re-installs easily. Outdoor NEMA 3R enclosure. This load center is UL listed and ANSI Certified.

- Outdoor NEMA 3R enclosure

- Main lugs are factory installed; convertible to main breaker
- Use with equipment ground kit TKG24 (order separately)
- Galvanized box for rust resistance with a self-adjusting dead-front cover
- Copper buss for increased conduction
- Full-length neutral bars for faster and easier wiring
- 100% split neutral holes on each side are rated for #14-4 wire
- Single-phase, 3-wire, 120/240 VAC, 22,000 AIC rating
- Compatible with GE THQL, THQP, GFCI and AFCI circuit breakers

Quantity: 1
