About this item

- **61.02" Extra Tall** The height of our extra tall and extra wide gate tall gate is 61.02 inches, which is much taller than most extra tall cat gates available on the market, thus effectively preventing pet cats from jumping out. It will be a perfect tall and wide cat gate if you have pets at home.
- **Ultra Narrow Spacing** The space between the tubes is 1.37", ultra-narrow so that pets or kids can not drill out from it or stuck their heads between it, better safeguarding babies and pets from danger. Besides, the package will come with two encryption rods, which can be put at the ends of the gate if the gap is too large.
- **Considerable Design** The handle is in the middle of the tall pet safety gate, convenient for daily use. Besides, the tall wide cat gate can open both sides forward and backward, and stay open at 90° and close automatically when it is less than 90°. In this way, you can easily walk through this gate for cats indoor extra tall without frequent opening and closing.
- **Safe and Durable** The extra tall pet gates for cats is easy for adults to open with one hand——Simply hold the handle and lift it upwards. But it is tough for children. What's more, extra tall pet gate has an upgraded thicker pipe wall, making it more solid and stable.
