### Description

## STAR Water Systems ENERGY STAR Pool Pump 1.5-HP Programmable Pool Pump

This unit is an open box from Lowes that has never been installed. These are currently retailing at \$822.98 at Lowes.

The STPP15VS Variable Speed Pool Pump stands out as the ultimate selection for diverse pool types, offering a specialized design tailored for in-ground pools.

Engineered with thick-walled body parts and a heavy-duty TEFC motor, it ensures durability and reliability. Its highly engineered hydraulics guarantee optimal performance for pools, spas, water features, or fountains, coupled with remarkably quiet operation. With features like a strainer cover kit for effortless maintenance, integral volute and pot to minimize hydraulic noise, and a see-through lid for convenient inspection, it's a self-priming pump for swift and easy start-up, making it an exceptional choice for your next pool pump.

- Energy Star Compliant
- Removable Ring and Cover Allow for Easy Cleaning and Maintenance
- Control Panel Built in that Allows for Custom Schedules and Multiple Speeds
- Heavy-duty TEFC motor
- Extremely quiet operation
- Self-priming for quick, easy start-up
- See-through lid permits easy inspection of strainer basket
- Highly engineered hydraulics make this rugged and tested design perfect for any pool, spa, water feature, or fountain
- Compatible with 1.5-inch or 2-inch intake lines

**Quantity: 1**
