Shipping Available No

Description

Filtrete Allergen Bacteria & Virus 1500 MPR Air Filter, 20 x 25 x 1-in

New without original plastic packaging.

- This pleated, 1-inch home air filter is designed for use in your residential furnace, air conditioner, or HVAC system.
- Works to attract and capture microscopic particles like smoke, cough and sneeze debris, bacteria, and viruses plus large particles including lint, household dust, and pollen.
- Designed with 3M Filtrete three-in-one technology to help trap unwanted air particles while letting cleaner air flow through.
- The high Microparticle Performance Rating (MPR) helps remove microparticles like pollen, pet dander, smoke, bacteria, and viruses from passing air, promoting a fresh and clean home.
- A dirty filter can make your system slow down, work harder, and waste energy—use the Filtrete Smart app on your compatible smart device (sold separately) so you never forget to replace your filter!

Quantity: 1
