Description

Vintage Robinson Knife Co. Fillet Knife with Sheath, 4.5" Scaler Blade

The Robinson Knife Company has a rich history in American cutlery, dating back to 1921. While they've produced a wide range of knives, their fillet knives are known for their quality and functionality. This knife has an overall length of 9.25" and the 4.5" blade shows some signs of use. The brass rivets have some verdigris. A previous owner inscribed their initials "H.A.S" on the handle.
