Description

GSEICE Margarita Machine for Home, Slushie Machine 3.2 Gallon Slushy Maker Machine for Slushy's, Frozen Drinks, 580W Slushy Machine for Family, Birthday, Wedding Party Black Color

Brand spankin New right out of the box! \$800.00 retail. Commerical quality just like the Tiki Bars have!

This would be one heck of a money maker too! Holds 35 - 12oz cups in the hopper!!

- Commercial Standards - GSEICE slushie machine uses R290 refrigerant. In just 50 minutes, the slush machine can make wonderful slushy's. 580W Compressor power save electricity and provides 26.6°F~30.2°F constant temperature to make a variety of alcoholic and non-alcoholic drinks like Margaritas, Daiquiris, Pina Coladas, Slushies or Frozen Lemonade. With the 3.2 gal hopper, it serves up to 35 cups (12oz/cup) at a time, it's the perfect slushy machine for a home or a party too!
- Simple Operation - The slush & cold drink mode and the hardness adjustment button allows you to adjust the temperature and consistency until it is ideal. This slushy maker machine comes with a mechanical control panel, safe, durable, waterproof, and insulated. The mix button can help you clean in one click and keep night mode. For business use, the margarita machine can bring more business for your slush truck, hotel, bar, club, winery, etc.
- 2-Layer Encryption Protection - The valve stem of this slushie machine dispenser is designed with a double-layer seal to prevent drinks from being wasted due to leakage. The post-evaporator seal ring is manufactured by a fully automatic CNC computerized mold set, the product is without a burr, and better fits the water tank. With food-grade PP material, not easy to deform. The margarita machine makes slushy's, frozen coffee drinks, and even frozen Adult cocktails.
- Easy of Use - The slushy machine with a recessed apple-shaped design, making it convenient for DIY drinks. 0.2gal removable drip tray with water spill warning for easy cleaning. The tank top with LED light and double thickened food grade PC transparent tank design allows you to clearly identify the frozen drink making at any time. Advances in margarita machines mean that blending these boozy beverages has never been easier. That will keep the party going all summer long.
- Versatile Application - The unique and atmospheric appearance design is suitable for integration into the decoration styles of different stores. LED lighting makes the slush more vivid and attracts customers to stop. Non-stuck axial flow fan and large vent area facilitate long-period operation. The ice maker slushy machine is great for pool parties and weekend parties. Always remember that the quantity of sugar and pure alcohol must not be lower than 14%. Enjoy your margarita.
