LOT 111 - TORK 16-Amps 120/277-volt Indoor Programmable Digital Lighting Timer

Description

TORK 16-Amps 120/277-volt Indoor Programmable Digital Lighting Timer

New in the original retail clamshell.

Overview

The RZ in-wall timer series is the most versatile heavy-duty timer in the market today. This timer includes sun set and rise astronomic programming, 7-day programming allowing 10 on/off daily settings, random and vacation mode security, daylight savings and leap year compensation, power outage backup, 3-way wiring and zero cross switching specifically for LED lighting. Manual override feature allows on-demand

control and no neutral wiring make this timer ideal for all installations where wiring is limited.

Quantity: 1
