Shipping Available Yes

Description

Vollara Air & Surface Pro (No Ozone)

The Vollara® Air & Surface Pro combines multiple complementary technologies, including HEPA, activated carbon, and ActivePure® Technology. Patented ActivePure is an advanced surface and air purification technology. It has been proven to reduce over 99.9% of many common airborne and surface contaminants.

These units use ActivePure Technology, **scientifically proven to reduce 99.9% of all tested viruses** (including this COVID-19 coronavirus), bacteria, mold, fungi, VOCs, smoke, and odors.. in the air AND all exposed surfaces.

Features and Benefits

- The two 7-inch ActivePure Cells are larger and more powerful in helping to reduce many surface and airborne contaminants faster.
- A redesigned air tunnel with increased airflow.
- Greater Coverage Area of up to 3,500 sq. ft.
- A True HEPA Filter for better filtration and removal of at least 99.97% of dust, pollen, mold, bacteria, and any airborne particles with a size of 0.3 microns.
- Both ActivePure Cells are always functioning when the unit is on, giving ActivePure purification and decontamination day and night.
- The optional ionization feature assists with particulate removal and can help in the efficiency of HEPA filtration.
- The unit will automatically reset and function at the most recent setting when power is restored after a power failure.
- Maintenance Reminders to clean and replace filters and cells – keep the unit running efficiently and effectively.

Lifespan

Use the ActivePure Vollara Air & Surface Pro as needed. The ActivePure Cell (filter) should be replaced every 12-24 months.

Industry Applications

The ActivePure Vollara Air & Surface Pro is a game-changer in air purification technology. Its innovative approach to purification makes it an indispensable asset in Wisconsin schools, commercial spaces, and residences alike. By prioritizing the health and comfort of occupants, this technology helps create environments where people can breathe easily, stay healthy, and enjoy their surroundings to the fullest.

• Wisconsin School Cleaning

- Ensuring a healthy indoor air quality is crucial for the well-being of students, educators, and staff within Wisconsin's schools. The ActivePure Vollara Air & Surface Pro goes beyond traditional air purification methods, actively eliminating airborne pollutants like viruses, bacteria, and allergens, thus setting a new standard for air purification excellence. Trust ActivePure for your [Wisconsin school cleaning](#) needs.

• Wisconsin Commercial Cleaning

- The ActivePure Vollara Air & Surface Pro guarantees that the air flowing through commercial settings like offices, retail establishments, and hospitality venues is not just clean, but also free from harmful pollutants. It is perfect for [medical facilities](#) to keep patients breathing easily and staying healthy,

• **Wisconsin Residential Cleaning**

- The ActivePure Vollara Air & Surface Pro generates a more revitalized and purer indoor atmosphere, which holds significant value, especially for households housing individuals with allergies or heightened respiratory sensitivities.

Input Voltage: 100 ~ 240 VAC; 50/60 Hz

External Power Supply; DC 24 Volts; 1.5 Amps Max.

Power Consumption: 43 Watts Max.

Conforms to UL STD 867

Size

11.75" high x 9.5" wide x 10" deep
(29.8 cm x 24.1 cm x 25.4 cm)

Weight

7.6 lbs (3.5 kg)

Covers a range of 500 sq. ft. | (46 m²) to 2,000 sq. ft. (185 m²)*

Coverage *Assumes 8 foot ceilings. Solutions should be customized based upon a variety of factors including HVAC system capabilities and settings, air flows taking into account walls, air pressure, and doors, ambient air temperatures and humidities, variable density, known VOC concentrations, other layers of protection.

Quantity: 1
