

Sale Name: November Estates & Collectibles Countdown Auction
LOT 210 - WWII Military Used Hunting / Utility Knife by PAL

Description

WWII Military Used Hunting / Utility Knife by PAL

This comes in good condition with original leather sheath. 6" blade.

Originally these knives were carry overs from the Remington Hunting designs, thus the "RH PAL 36". PAL bought out Remington knives in 1939, but continued to use the "RH" stamp, (from an article by Frank Trzaska). These knives were made w/bright, or parkerized blades. Not sure about production figures, but they made a lot of them, probably the most common of all the 6" utility knives made in WW2.

Quantity: 1
